

# Willow Obelisks

Tutored by Rachel Dixon

Working with willow grown on the Somerset levels, we will create a plant obelisk (or 2 smaller ones) by weaving a spiral from base to tip, using traditional techniques. Then, to develop the obelisk into a unique feature for your garden, you could add a head and arms, embellished with foraged materials. Your completed structure will be both functional and decorative.

This course is suitable for anyone, beginners and experienced alike.

**Sat 25<sup>th</sup> May, 10:00 - 16:00**

**£90** includes materials, tools, tuition, lunch, refreshments and gorgeous views of nature.
