

Capture Nature's Colours in a Textile Form

© Jeanette Appleton

Tutored by **Jeanette Appleton**

Explore contrasting colours for a deeper understanding of the nuances of tints and tones in nature.

Surprising hues can be achieved through different layering methods or hand-mixing Merino wool tops.

Once dry, the pre-felt can be manipulated to change shape or collage together to resemble the forms of nature.

The method is open for the individual to develop a personal approach for observing and connecting to nature.

This course is suitable for all.
